Members Update – Impact of New National Lockdown Restrictions

Following the Government announcement on 4 Jan regarding the move to another national lockdown, we are closing the outdoor range until further notice. This requirement is covered in the Government's new restrictions which states that all archery ranges must close. This applies to both indoor and outdoor ranges, pending a Government review of the current lockdown in the middle of February. This guidance can also be found on the Archery GB website.

Whilst I appreciate that this is disappointing news, the need to protect the health and safety of ourselves and our fellow members is more important than ever in view of the rapidly rising number of Covid cases. We will of course continue to monitor any changes in AGB guidance/instructions, and will advise members of any further developments.

In the meantime, take care and stay safe!

David Williams
Chairman 5/01/21
